

March 7, 2022

Dear Valued Customer,

Essilor of America, in an effort to better serve our customers, has decided to discontinue some extremely low volume products as of April 7, 2022. This discontinuation includes:

- Products that are no longer being manufactured worldwide
- Legacy products from Essilor brands like X-cel, KBCo and SLC
- Product from other lenscasters that are now no longer available from Essilor Distribution Centers

Please note there are 3 products from SLC previously communicated as “discontinued” that have been instead moved to Make-To-Order (MTO). Please refer to Exhibit B for this list of products.

Please refer to **Exhibit D**, for the complete list of products being discontinued as of April 7, 2022. You may continue to order if inventory is still available but we cannot guarantee fulfilling orders as production has stopped. Essilor will credit a ONE-TIME ONLY RETURN of the remaining inventory for the lenses that are returned by May 7, 2022 (this includes obtaining your Return Authorization (RA) number and shipping of product).

As we are providing more detailed communication please make sure you review all the exhibits:

- Exhibit A: Instructions for One Time Return
- Exhibit B: PCATs converting to Make-To-Order (MTO)
- Exhibit C: PCATs with replacement
- Exhibit D: All PCATs discontinued

If you have any questions or concerns, please feel free to contact your assigned Essilor Wholesale manager.

We wish you great success this year.

Sincerely,

A handwritten signature in black ink that reads 'Jeff Harrell'.

Jeff Harrell
Vice President, Products
Essilor of America

Exhibit A: Instructions for One Time Return

Essilor will credit a ONE-TIME ONLY RETURN of the remaining inventory for the lenses that are returned by May 7, 2022 (this includes obtaining your Return Authorization (RA) number and shipping of product). To return products please contact Essilor Customer Service via email at lenscustomer@essilorusa.com to obtain your Return Authorization (RA) number and return the qualified inventory you do not wish to retain. The below instructions must be followed:

1. Do not mix other active, non-discontinued products in the return.
2. Clearly mark this is a discontinued product return on the outside of the shipment.
3. Standard return requirements still apply i.e.:
 - a. Cannot return inventory > 3 years of age
 - b. Must be in the original packing
 - c. No damage or markings on packaging
4. If the return is not completed by May 7, 2022, it will be declined with no credit received and the inventory will not be returned to you.
5. Credits issued for returned lenses will be at the standard cost less any applicable discounts.
