

CLEAR BLUE FILTER™

POWERED BY SCIENCE

Blocks 100% of UV (400nm) and filters damaging high-energy blue light rays.

PROTECTION BY DESIGN

Safety is built into the lens, not the coating.

SAFE FOR YOUNG EYES

Children are 70% more susceptible to high-energy blue light transmited to a child's retina.³

SKIN CANCER FOUNDATION SEAL OF APPROVAL

Recommended as an effective UV filter for the eyes and surrounding skin.

NO NEED TO SURFACE, FSV SINGLE VISION LENSES AVAILABLE AT GLOBAL OPTICS

Style	Material	Diameter (mm)	Power Range	CYL/Adds
FSV HC	Poly	Spherical 65mm, 75mm	+4.00 to -8.00	out to a -2.00 cyl
A FSV Super-Hydro Vivid AR	Poly	Aspheric 65mm, 75mm	+4.00 to -6.00	out to a -2.00 cyl
FSV HC	Plastic 1.50	70mm	+4.00 to -6.00	out to a -2.00 cyl
